- **What inspires you at Saint Mark's right now? What do you find less inspiring?**

Wish ministry would play a larger role in being a prophetic witness.

Not feeling as much support from the larger congregation.

Need more support from the Staff. Not enough communication, presence. It was affirmed that the leadership has been listening. Desire more clergy presence during the meetings.

Desire to get more involved with other organizations with similar values.

Not enough interest within the congregation.

- **As a community, where should we grow? Where should we focus our energy?**

Focus on maintaining the film series.

Technological support, writing articles, telling stories.

Participate in bringing a particular person to St. Mark's to speak

Support other groups who would like to cooperate with us in offering an event at St.

Marks.

Inter-group relations, interacting with other ministries at the Cathedral.
