### **OLD BUSINESS**

#### **St. Nicholas Redevelopment Update**

John Hoerster reported that the 120-day Due Diligence period with the development partner will end June 4. The report will provide extensive details addressing the costs of the seismic upgrade, the roof and hazardous materials. Anticipated timeline: June 4 receipt of the Due Diligence report; Exploratory Committee meeting on June 14; update the Vestry on June 22; Exploratory Committee meeting on July

14 to determine a recommendation; and a Vestry meeting on July 27 or an early August special meeting to determine if we proceed with the process.

### **Statement of Commitment and Action Update**

The Executive Committee accepted the changes proposed at the April Vestry meeting and recommended the Statement of Lament and Commitment to Action for adoption. A friendly amendment was made and approved to drop the word “Ally” from the spelled out “LBGTQIA+” found in the preamble. **The Vestry unanimously approved the adoption of the Statement of Lament and Commitment to Action as amended.**

### **Formation Consultation**

Consultant Jamie Martin-Currie will be providing a report to the dean and wardens the second or third week of June based on over 200 responses to the Parish survey and the Listening Sessions. Discussion then took place about the scope of her responsibility and how the Listening Sessions seemed to focus specifically on the youth. Expressions of interest in what her report will reveal intergenerationally.

### **Vestry Liaison/Committee/Ministry Roles**

Enfolding slowly, the work of the formation consultant will help form the roles and ongoing conversations with ministries will help with the transition. Ministries, along with their vestry liaisons, are asked to look at how their decisions are driven/informed by the Mutual Ministry Goals. Liaisons are also asked to submit quarterly minutes or notes to the Vestry Dropbox. Creation Care and Justice Ministries Coordinating Team will provide a model for how this will work.

Relationship between Mutual Ministry Goals and the Strategic Plan was discussed. All that we do is grounded in the roots of our Strategic Plan, approaches may not be as relevant post-pandemic but the desire and need for healthy congregation depends more on our Mutual Ministry Goals.

## **NEW BUSINESS**

### **July 27 Vestry Meeting**

The question of how the vestry wants to meet moving forward with options of Zoom, a hybrid of in-person and Zoom (works well for the diocesan meetings with the Diocese of Olympia) or in-person meetings? Discussion took place of the merits of each, especially with the inclusion of a meal together. The dean and the wardens will meet and make an informed decision.

### **Resolution for 4% Annual Draw**

Phil presented the annual resolution to move 4% of the Endowment Funds (in the Diocesan Investment Fund), \$75,000, into the general operating fund unless donor restrictions apply.

**The Vestry approved the recommendation from the Executive Committee to move 4% of the Endowment Funds into the Operating Fund.**

### **Discernment Updates**

- The ordination of Malcolm McLaurin will take place on June 15 at Saint Mark’s. The ordination will be livestreamed.

- Lynne Markova is also finishing her Phase 2 work and will be seeking her nomination as a postulant.
- Kelly Moody has been assigned to an internship at Saint Michael & All Angels in Issaquah and is doing well.

### **Carbon Reduction Work at St. Nicholas**

The Cathedral and St. Nicholas have budgeted \$25,000 each toward the Carbon Reduction Initiative. Currently Saint Mark’s has spent \$3,800, with \$5,600 left to do for a total of \$10,000. With the Puget Sound Energy instant rebate of \$4,300, the net cost will be \$7,800 and an additional \$9,200 in deferred maintenance.

Current expenditures with the St. Nicholas Building are \$45,000, with \$37,000 still needed and required to receive the rebate. A total of \$83,000 will be spent – PSE will rebate \$35,000 with a net cost of \$49,000. Over the next five years, \$40,000 in additional incentives will be anticipated. The Executive Committee recommends the approval of the additional expenditures. It was noted that savings are being realized now, and Solarc is adding value.

**The Vestry approved the additional expenditures as presented by the Executive Committee.**
