

**St. Mark's Cathedral Creation Care Ministry monthly meeting**  
**Tuesday, November 15, 2022, via Zoom**

*Saint Mark's Cathedral acknowledges that we gather on the traditional land of the first people of Seattle, the Duwamish People, who are still here, and we honor with gratitude the land itself and the life of all the Coast Salish tribes.*

Present: Kathy Minsch, co-chair and facilitator; CJ Beegle-Krause; Wayne Duncan; Richard Hartung; Ruth Mulligan; Edie Weller; Carolyn White; Marjorie Ringness; Sue Mitchell; Sue Ratner; Ken Diest; Libby Carr; Jennifer King Daugherty; Jessie Dye.

Carolyn opened with the Land Acknowledgement and opening prayer.

The group was then invited to offer a response to this question: What is one thing that brought you joy in the past month?

Jennifer shared about "what is our spiritual grounding for ministries of justice?" We are standing at the foot of the cross of creation. We are called to bear witness to this reality by holding the suffering, working and waiting with patience, remembering Jesus' words "Fear not." Our hope is grounded in who God is in the present. There is power in prayer. There was good discussion among the group. But left us as individuals with the question "What gives us hope?"

**UPDATES:**

Marjorie reported on behalf of Wayne about the possible **collaboration with the Visual Arts Ministry** on an exhibit of works by two artists portraying farm workers and agricultural themes in Washington State, which ties in well with climate justice and the effects of climate change on farm workers. Since one of the featured artists is not available this spring, it is likely that this exhibit will become a fall 2023 event.

Richard reported that the fall edition of the **Creation Care newsletter** will be coming out later this week. Thank you to several who contributed to this edition.

Marjorie has followed up with parishioner Gordon Miller about sharing at a Sunday forum from his book **Wisdom of the Earth**. Gordon is happy to share from this book, as well as a second book. Next steps are to find a date and determine if there is any other event or program at St. Mark's this winter that a forum like this would complement well.

Kathy reported on progress to work on restoration of the **Greenbelt**. Ruth had provided some important history and a connection with Robert Hayden, and CJ and Kathy toured the area. CJ acknowledged that this project will require careful planning because of the steep slope and the possibility of people living in the greenbelt, among other factors.

Kathy reported that the second **Creation Care retreat** is being planned for a Saturday in mid-January-through February, dependent upon what works for the facilitators and Diocesan House.

Kathy reported that a State Legislative **Advocacy group** will form in January to track bills during the 6-month session and provide appropriate support. Resources from Earth Ministry and the Washington Environmental Council will be used.

Richard reported on the work of the **Actions Team**. The November Climate Conversation on Investing was well attended and generated some possible interest in continuing discussions of this topic with a small group. The December Climate Conversation topic will be on eco-friendly shopping and holiday ideas. January's discussion will be on Advocacy. The Actions group is working on an idea to "celebrate wins" – a way of sharing ideas and actions taken to reduce household carbon footprints. It was suggested that we share tips in the Cathedral newsletter and ask for people to share their ideas. The Creation Care Ministry continues to host a table in the back of the nave on the last Sunday of each month, but will check to be sure this month's plans will not conflict with anything planned for the first Sunday of Advent.

We briefly talked about the 2 resolutions passed at the Diocesan Convention in October relating to Creation Care. One was for a Creation Justice pledge and one for the establishment of a Season of Creation. (Copied at the end of these notes.) We will continue to review and discuss these and the [Bishop's Task Force on Climate Justice Report](#) at future meetings.

There was a short discussion about actions some are taking to reduce their carbon footprint.

We decided to not meet in December and will stay in touch through email updates. The next Creation Care Ministry meeting will be January 17, 2023.

The group spent a few minutes reflecting on how our meeting tonight touched on St. Mark's Mutual Ministry goals of 1.) Creation Care and Carbon Reduction, 2.) Restorative Justice and Systemic Change, and 3.) Innovative and Intergenerational Community.

Marjorie closed with [A Prayer for Repair](#), from John Kydd while at COP27.

Minutes submitted by  
Marjorie Ringness & others present

**Next Meeting Tuesday, January 17, 2023**

## Creation Care Resolutions Passed at Diocesan Convention – October 2022

### Resolution 4 - Creation Justice Pledge

*Submitted by: John Kydd (Chair) and The Rev. Gail Wheatley on behalf of The Bishop's Task Force on Climate Justice.*

- Resolved**, that the 112th Convention of the Diocese of Olympia recommend the study, reflection, education in congregations about the Creation Justice Pledge and encourage congregants and congregations to study the pledge, adapt it to their local context, and adopt it, and be it further
- Resolved**, that the Diocese of Olympia consider providing a web page for those adopting the pledge and which would provide resources for assisting in determining their personal and congregational carbon footprint.

### Explanation

Pledging is central to faith. It keeps the lights on. Pledging for Creation Justice should be central to every faith. It keeps existence on. Committing to lowering our individual carbon footprints is important but no longer enough because most carbon expression is systemic, and the impacts of climate change inflict far greater harm on poor and marginalized communities. Like COVID, climate change harms the “have nots” far more than the “haves.”

We cannot address climate change without addressing our environmental racism and other forms of systemic discrimination. We cannot continue to pretend to be a colorblind society when we have, for four centuries, systemically deprived our people of life, liberty, and property based upon their color.

Per the COP Paris Accords, every country is urged to pledge to reduce carbon expression and assist countries harmed by carbon expression. The primary reason developed countries and energy companies have not pledged to address their harms is that they are unwilling to face the injustice they have created.

Since pledges by key nations are “empty,” we, as people of faith, can set the moral example by making pledges that are “full.” As our forebears pledged to abolish slavery and later to seek civil rights, we can seek climate justice.

The Episcopal Church has written creation care pledges and covenants such as the Episcopal Creation Care Pledge <https://www.episcopalchurch.org/ministries/creation-care/pledge/> and the Episcopal Covenant to Care of Creation <https://www.episcopalchurch.org/ministries/creation-care/> to build upon. Each reflects a commitment to care for Creation such as by eliminating the use of single-use plastics, learning to use a carbon tracker, planting trees, or purchasing carbon offsets.

We can pledge to understand and undo injustice to Creation by assisting another congregation significantly harmed by climate change. As congregations we can set an example for what countries should do.

The pledge is not fixed. Each congregation can adapt it to their needs. It is also optional. One need not commit to every term. As commitment grows, the pledge can grow. The Pledge allows clergy to assess the interest of their congregants. Members of the Bishop's Task Force on Environmental Climate Justice and others can assist in providing content for the diocesan webpage.

### Creation Justice Pledge

1. I agree we have a climate emergency. I pledge to determine my carbon footprint (<https://www.sustainislandhome.org/>) and to reduce it by 50 percent by 2030.
2. I agree to urge my congregation to declare that there is a climate emergency. I pledge to determine the carbon footprint of our buildings and activities and to reduce them by 50 percent by 2030.

3. I pledge to educate myself about climate change so I can educate others about it. As part of my education, I pledge to complete a comprehensive climate change training such as Climate Reality Leadership Training (<https://www.climaterealityproject.org/training>).
4. To understand climate injustice, I pledge to complete the Episcopal Sacred Ground Program (<https://www.episcopalchurch.org/sacred-ground/>) this calendar year.
5. I pledge to learn how to write effective letters and op eds through, for example, <https://thirdact.org/> or some other organization.
6. I pledge to support youth and other climate activists.
7. I pledge to urge my congregation to adopt a curriculum that teaches the need for the care of Creation to our children as a central part of our faith.
8. I pledge to stop using banks that provide major funding for fossil fuel extraction.
9. I pledge to reach out to a congregation significantly harmed by climate change here or abroad and seek ways to address their harm.

Taking Action: Pledging unites us in reflection and action through which we promise to study, understand, and renew our frayed relations with Creation and join with others to speak out on climate issues.

Results: Pledging shows we are serious about our faith and about climate justice. As the situation worsens, more and more people will seek congregations that are facing, not fleeing, reality. As we embrace our deeper faith mission to seek Creation Justice, others may wish to join us.

## **Resolution 5 - Considering Adoption of a Season of Creation**

*Submitted by: John Kydd (Chair) & The Rev. Gail Wheatley on behalf of The Bishop's Task Force on Climate Justice*

2 **Resolved**, that the 112th Convention of the Diocese of Olympia join other Episcopal dioceses in considering adoption of a Season of Creation, and be it further

3 **Resolved**, that the Diocese of Olympia incorporate this five-week season into its Diocesan  
4 calendar for promotion and education in our diocese, and be it further

5 **Resolved**, that this Convention commend to and encourage all congregations in our diocese to  
6 study and creatively adapt the Season of Creation to celebrate and better understand Creation  
7 in their locality

### Explanation

Creation Season (September 1-October 4) is celebrated by billions of Christians around the world. It begins on September 1 with the World Day of Prayer for Care of Creation <https://www.creationjustice.org/world-day-of-prayer-for-the-care-of-creation.html> and concludes with the feast day of St. Francis of Assisi on October 4.

The Season of Creation started in 1989 when Patriarch Dimitrios proclaimed September 1st as a day of prayer for creation. September 1st is the first day of the Orthodox church year so this was a celebration of God's Creation. The World Council of Churches extended it to a season from September 1st to October 4th by adding it to their annual calendar.

Pope Francis adopted the Season of Creation in 2015. The Anglican Communion recognizes the Season of Creation and resources provided by Anglican Communion Environmental Network has provided several here: <https://acen.anglicancommunion.org/resources/season-ofcreation.aspx>

Climate change now threatens all worship. As nations fall short of commitments needed to address global climate change, faiths can provide critical support by standing for the sacredness of Creation and Justice. Too many see creation as a series of resources instead of a web of sacred relations. Our faith worship can elevate the importance of addressing climate change and our capacity to adapt to it. Our first commandment is to protect and serve the garden of creation (Gen 2:15). Let us do so with beauty and ceremony worthy of God's gift of Creation.

Two Season of Creation resources packed with prayers and song offer many ideas for interested congregations. The first is from both Dioceses of Massachusetts. It can be found at <https://www.diomass.org/creation-care>. Their 2022 theme is "Listen to Creation" <https://seasonofcreation.org/>

The second is from South Africa which promotes the wonderfully mutual concept of "ubuntu" ("I am because you are") extending it to eco ubuntu ("we are because the planet is"). Their Season of Creation Manual can be found at: <https://www.greenanglicans.org/wp-content/uploads/2022/08/manual-2022-final.pdf>

For example, their five-week season celebrates: 1) Land Justice and Ubuntu, 2) Water Justice, 3) Gender and Climate Justice, 4) Justice for all God's creatures, and 5) St Francis and Ubuntu.
